

CITY OF SILVIS - Cross Connection Control Survey

In order to protect the City of Silvis water supply from being contaminated, we are conducting a survey to determine if there are any hazardous conditions that could affect our drinking water. We appreciate you taking the time to complete the survey. If you have questions regarding the survey, please contact Jim Grafton in the Public Works Department at (309) 792-9181.

A fillable PDF version can be found on www.silvisil.org and emailed to information@silvisil.org. You may also mail the survey to City of Silvis, 121 11th Street, Silvis IL 61282 at your convenience. Thank you.

1. Do you have any other source of water that is connected to your plumbing, such as a private well, pond, lake, tank, or reclaimed water? Yes No
2. Are there any backflow prevention devices installed on the premises? (This does not include devices installed on the city water meter or outside water/garden hose.) Yes No
If so, has the device been tested? (If yes, please provide a copy of the test results to one of the following: e-mail to information@silvisil.org, fax to (309) 792-9726, or mail them to 121 11th Street, Silvis IL 61282) Yes No
3. Do you have a permanent in-ground lawn irrigation system installed on your property? (This does not include lawn water devices attached to a garden hose.) Yes No
4. Do you have a swimming pool? Yes No
If yes, is the pool filled by a permanent connection to the water system? Yes No
5. Is your building heated by a boiler? Yes No
6. Do you operate a business out of your home? Yes No
7. Do you have any of the equipment listed below on the premises? (Check all that apply)

<input type="checkbox"/> Fire sprinkler system	<input type="checkbox"/> Water-cooled equipment	<input type="checkbox"/> Grease traps
<input type="checkbox"/> Hot water heat or Boiler	<input type="checkbox"/> Pressure booster	<input type="checkbox"/> Sterilizer
<input type="checkbox"/> Water cooling tank or Evaporator	<input type="checkbox"/> Baptismal fountain/Tub	<input type="checkbox"/> Photo processor
<input type="checkbox"/> Temporary water service	<input type="checkbox"/> Water softener	<input type="checkbox"/> Shampoo bowl
<input type="checkbox"/> Car wash facilities	<input type="checkbox"/> Industrial fluid system	<input type="checkbox"/> Chemical feeder
<input type="checkbox"/> Pressure washer	<input type="checkbox"/> Condenser washer	<input type="checkbox"/> Air washer
<input type="checkbox"/> Steam equipment	<input type="checkbox"/> Truck or Tank filling equipment	<input type="checkbox"/> Soap injector
<input type="checkbox"/> Soft drink dispenser	<input type="checkbox"/> Industrial air conditioning equipment	
<input type="checkbox"/> Outdoor yard hydrant (a plumbing fixture which stands upright out of the ground)		
<input type="checkbox"/> Other water uses: _____		

The Illinois Department of Public Health Plumbing Code Section 890.1130 requires hose vacuum breakers to be attached to an outdoor faucet. These devices protect the plumbing system from being contaminated by any substance which might enter the water hose (lawn fertilizer, herbicide, soap, etc.). Hose vacuum breakers are available at most hardware stores or through your local plumbing contractor.

The information provided in this survey form is an accurate and current description of the water system at this address. Please write your name below as confirmation of the person completing the survey.

Name: _____ Date: _____

Business (if applicable): _____

Address: _____
